HOLIDAY ASSIGNMENT & PROJECT 2025-26

SUBJECT: - ENGLISH

CLASS IV & SEC: _____

NAME: _____

ROLL NO. _____

1. Read the following unseen passage.

The Sun is the biggest source of light and energy for life on Earth. It rises in the east and sets in the west. Without sunlight, plants cannot make their food, and without plants, animals and humans would not survive. Sunlight also gives us Vitamin D, which is important for our bones. In the morning, people like to go for walks or play outside because the Sun's rays are gentle. Farmers depend on sunlight to grow their crops. Solar energy from the Sun is also used to make electricity. However, too much heat from the Sun can be harmful. That is why we should wear caps or use umbrellas when we go out in the afternoon. The Sun teaches us the importance of balance in nature.

Answer the following questions.
