**Q.2 Read the passage and answer the following questions.**

**A day on a beach.**

**On a** sunny afternoon, Lily and her family went to the beach. The sand was warm under their feet, and the sound of the waves crashing on the shore made them feel relaxed. Lily built a big sandcastle with towers and a moat. Her little brother helped by collecting seashells to decorate the castle.

Later, they went for a swim in the cool, blue ocean. Lily loved splashing in the water and feeling the waves push her back to the shore. After swimming, they enjoyed a picnic under a big umbrella. They ate sandwiches, fresh fruit, and drank cold lemonade.

As the sun began to set, the sky turned orange and pink. Lily watched the sunset and thought it was the perfect end to a fun day at the beach.

Questions:

1. **Where did Lily and her family go on a sunny afternoon?**

**Ans-**

2. **What did Lily build on the beach?**

**Ans-**

3. **Who helped Lily decorate the sandcastle?**

**Ans –**

4. **What did Lily's family eat during their picnic?**

**Ans-**

**5. What did Lily think about the sunset at the end of the day?**

**Ans-**

Assignment

Date: | \_\_\_\_\_

Page: | \_\_\_\_\_

① Simplify the numerical expressions.

①  $2 \times 1 - \frac{1}{4} \times \frac{1}{4} \div 2$ .

②  $36 - 11 - 15 - 2$ .

② Divide 60.35 by 25 and round off quotient to the nearest ones.

③ Find the average of  
 $\frac{1}{10}, \frac{2}{10}, \frac{3}{10}, \frac{4}{10}, \frac{5}{10}$ .

④ Find the average of the first five multiples of 5.

⑤ Round off each of the following decimal numbers to the nearest ones, Tenth and Hundredth.

① 3.081

② 9.987.

Project → Make an art integrated project of Simplification Rule of Numerical expression.

Note → (DMAS)

6. Describe the need to conserve fuels and ways to use alternative sources .

Project : 1. Create a model of water cycle using cardboard , clay, paper mache

2. Create a colour full poster highlighting the ways to conserve water at home and school.
